ALL DISTANCES ARE IN METRES

INTEGRATED SURVEY AREA No. 13, DELTA

NAD 83 (CSRS 2005)
Grid bearings are derived from observations between geodetic control monuments 82H0572 and 82H0520. This plan shows horizontal ground-level distances unless otherwise specified. To compute grid distances, multiply ground-level distances by the average combined factor of 0.9999874, which has been derived from the control monuments listed above.

Lot dimensions are derived from Field Survey.
