

# WELCOME

## 53 Street and 28 Avenue Roadway and Utility Improvements

PROJECT AREA

Public Information Meeting

# FREQUENTLY ASKED QUESTIONS

## How will this project benefit residents?

- ✓ Improves access around our community for vehicles, cyclists and pedestrians
- ✓ Improves safety with new traffic signal, street lighting, and improved bus stops

## What impact will there be during construction?

Some driveway accesses will be impacted during the placement of the new asphalt. All residents will be informed of the paving schedule well in advance to minimize the inconvenience to residents. Night and weekend work is being considered to reduce traffic delays during construction.

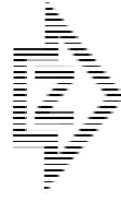

## What is the project timeline?

Construction for this project is tentatively scheduled as follows:

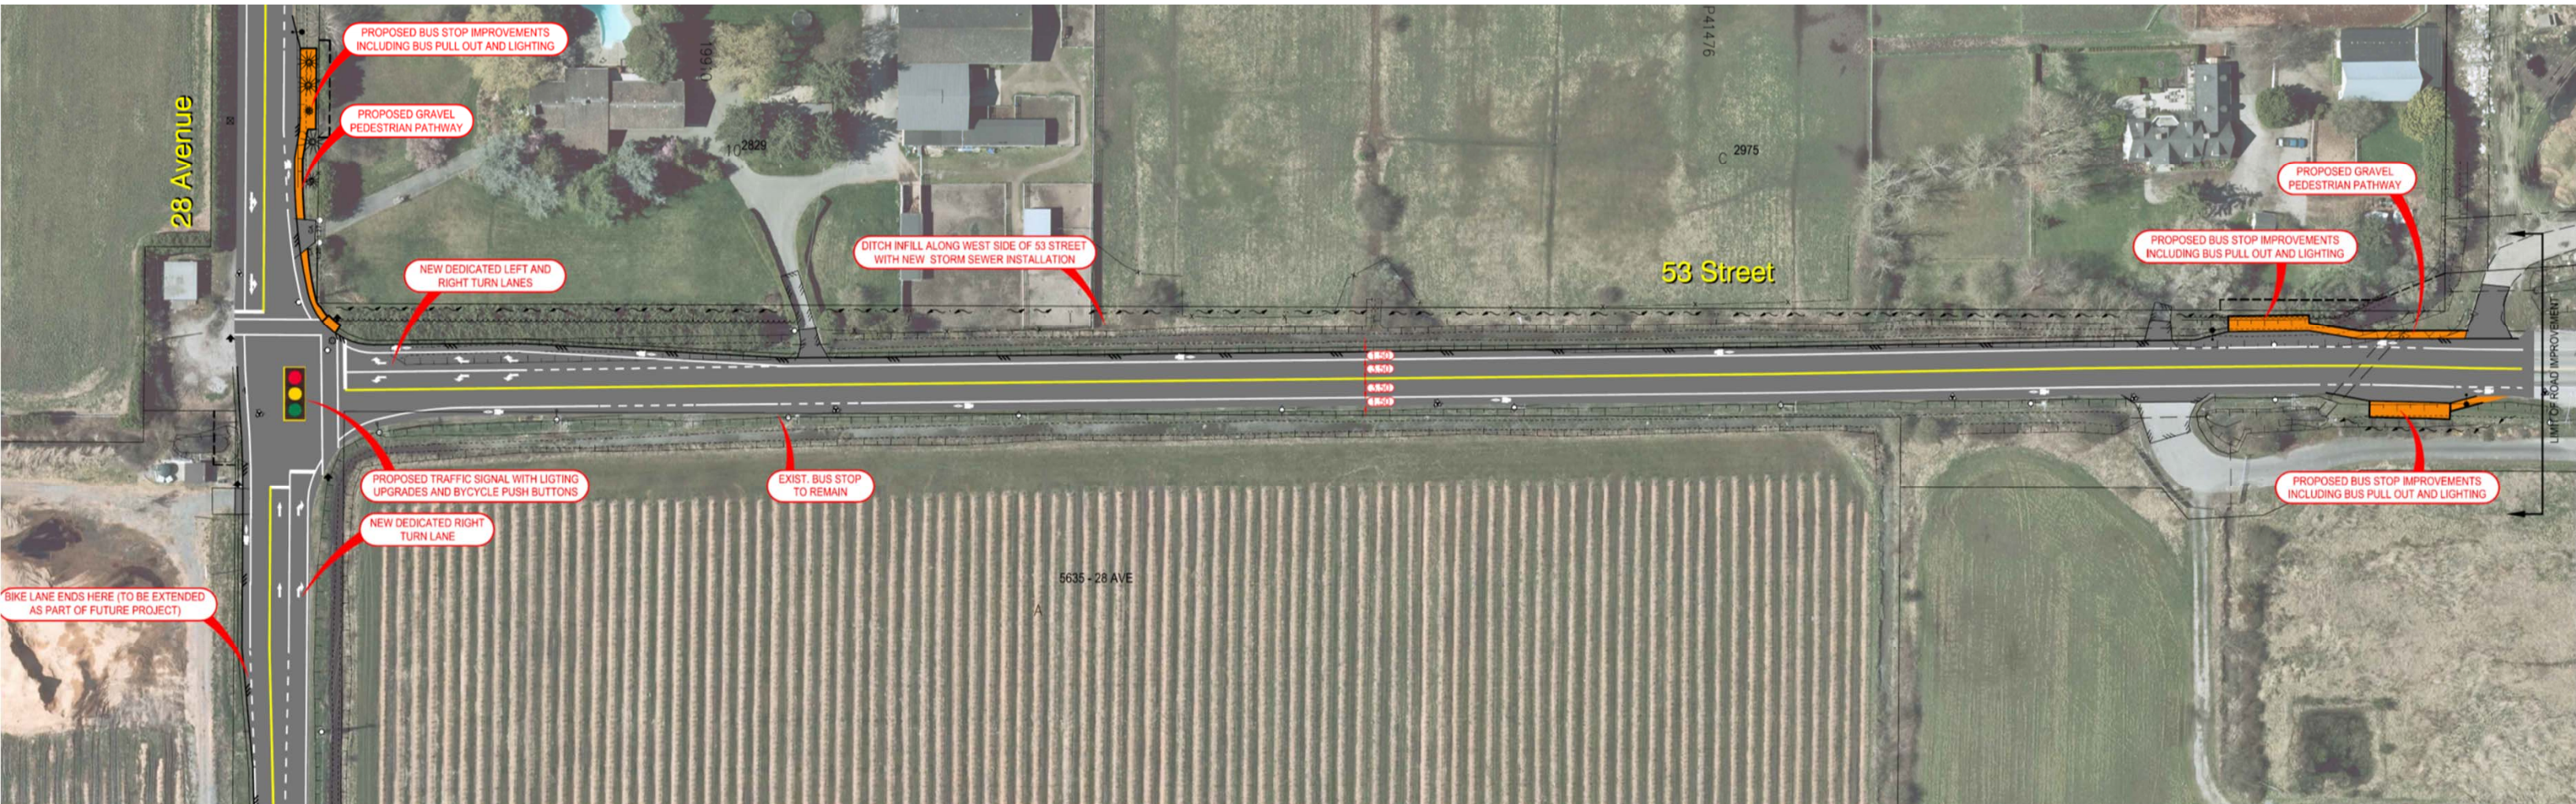

- Summer/Fall 2018/Winter 2019 – Metro Vancouver Watermain Construction
- Spring 2019 – Delta Watermain Construction
- Summer/Fall 2019 – Roadworks Construction

# PROPOSED 53 STREET IMPROVEMENTS

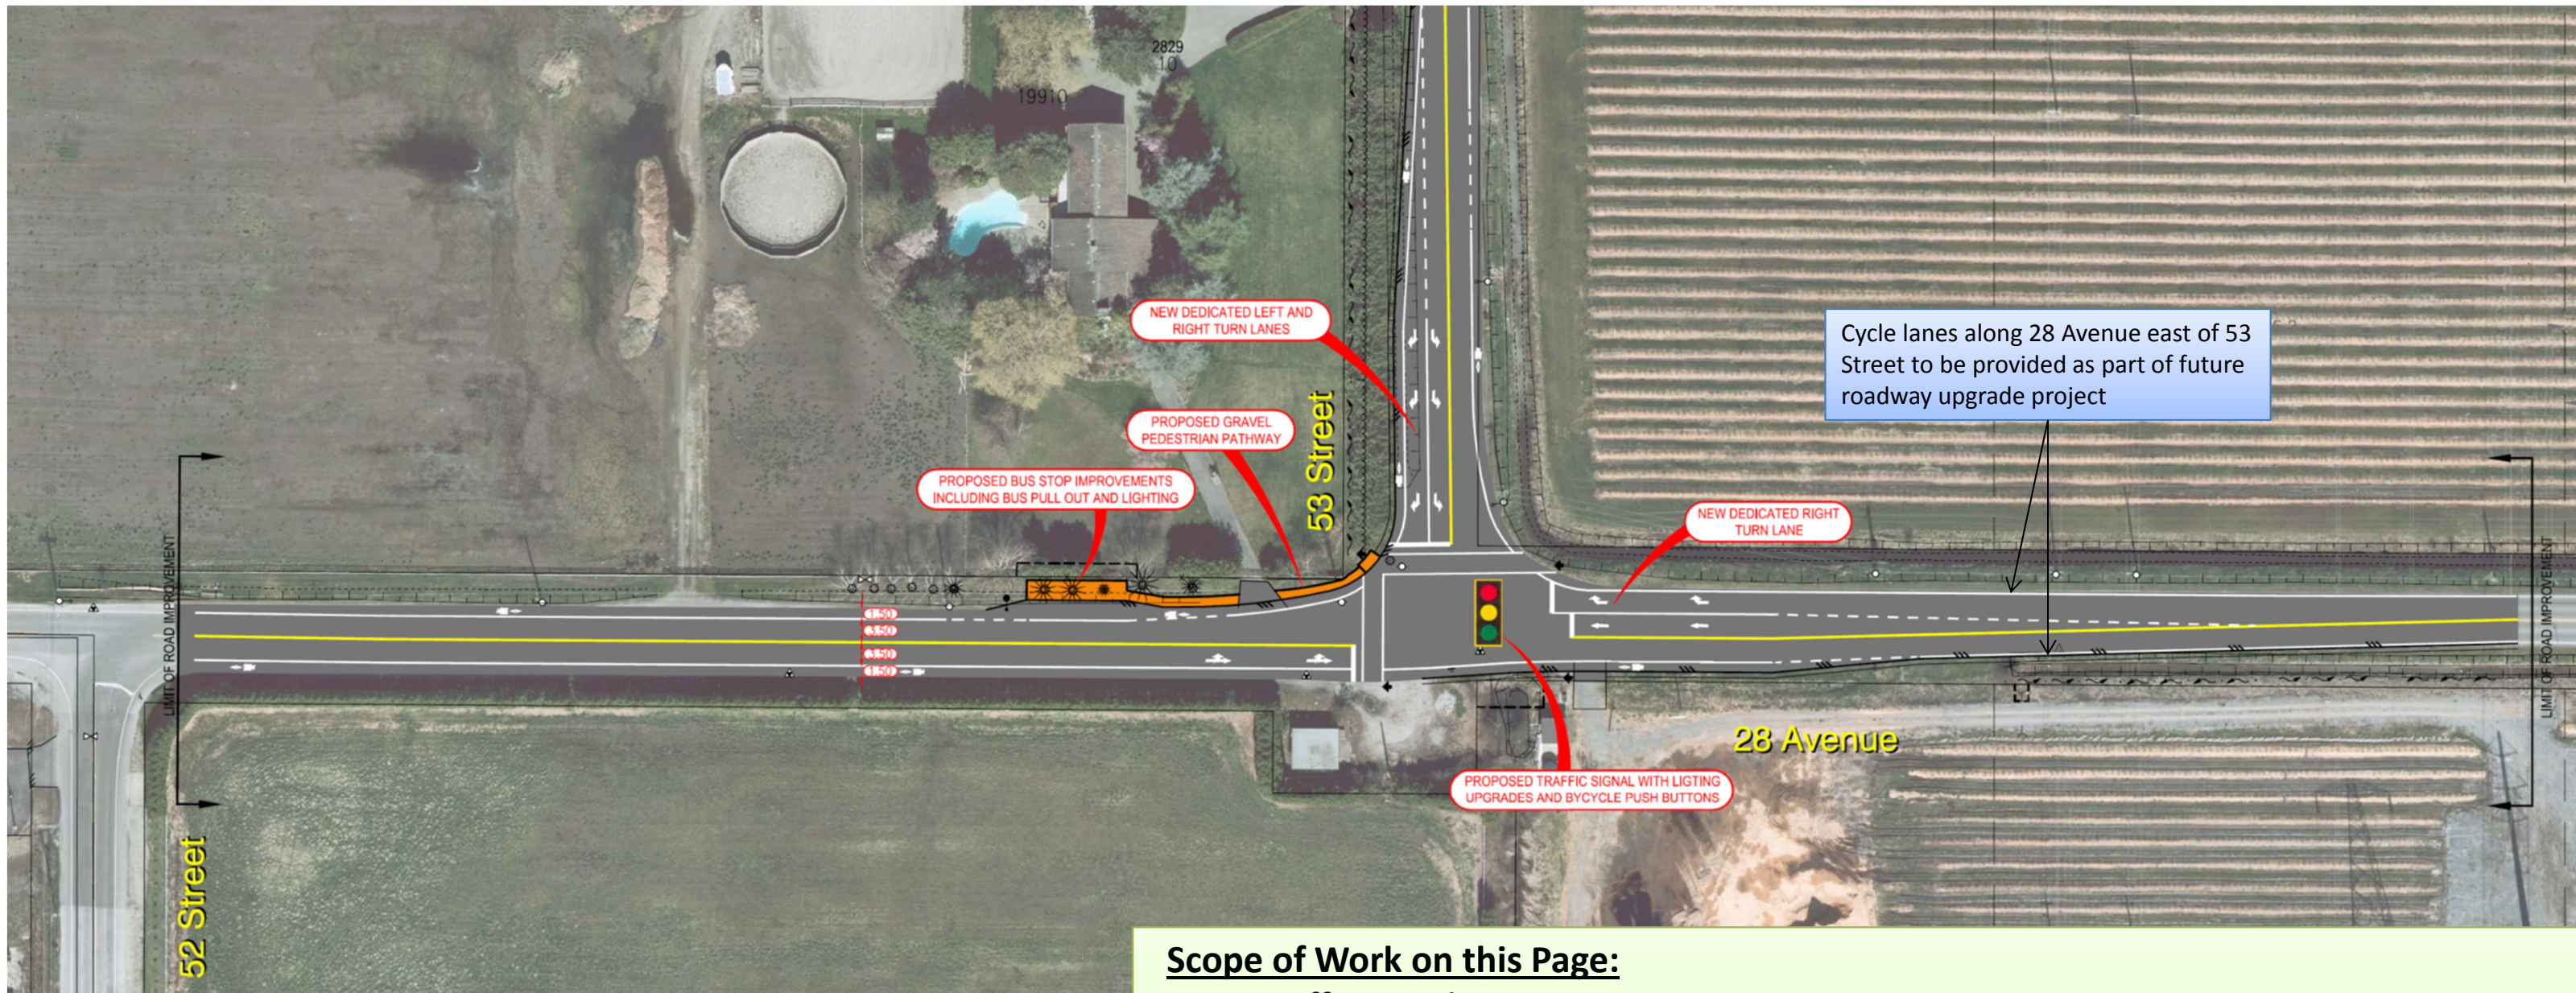

## Scope of Work on this Page:

- New traffic signal on 53 Street at 28 Avenue
- LED lighting improvements at the intersection
- Bus stop improvements with new LED lighting
