

# Community Profile of Racialized\* Groups in Delta

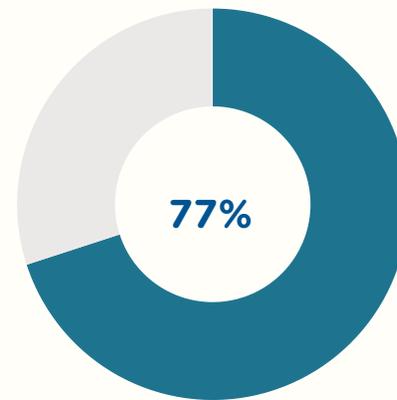

According to the 2021 census, 45% of Delta's population identify as members of racialized groups, also known as visible minorities. A majority of both immigrants (77%) and recent immigrants (91%) are racialized.

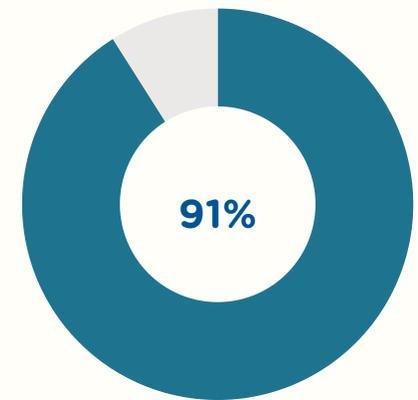

Total % Population Identifying as Racialized

Canadian Born % Population Identifying as Racialized

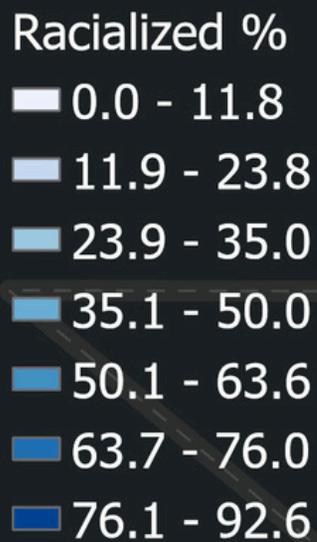

Total Immigrants % Population Identifying as Racialized

Recent Immigrants % Population Identifying as Racialized

\*The term "racialized communities" is increasingly replacing "visible minorities" because in many municipalities, the population of non-white individuals constitutes the majority rather than the minority of the overall population. The Employment Equity Act defines visible minorities as "persons, other than Aboriginal peoples, who are non-Caucasian in race or non-white in color." The primary groups designated as visible minorities include South Asian, Chinese, Black, Filipino, Arab, Latin American, Southeast Asian, West Asian, Korean, and Japanese.
