

MESSAGE FROM MAYOR GEORGE V. HARVIE AND COUNCIL

As part of our efforts to enhance residential recycling, the City of Delta is excited to present **Recycle 2020**. As outlined in this new Collection Guide, Recycle 2020 involves three key changes to our recycling program. Delta recently joined Recycle BC, a not-for-profit group responsible for residential packaging and paper recycling throughout BC, to help us maximize the amount of collected material that actually gets recycled while also saving money.

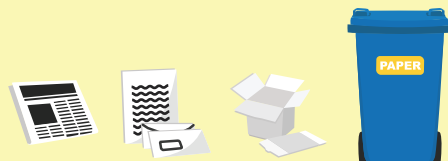

Residents are dedicated to protecting the environment and as your Delta Council and leaders of this great community, we too are committed to the fight against climate change for a greener, cleaner Delta. We encourage you to use this Collection Guide to learn about the changes coming as part of Recycle 2020 so we can work together to increase the amount of packaging material that is recycled.

Thank you for embracing these changes – with your help, we can make a positive difference for our community.

Recycle 2020: What's different?

1 MIXED PAPER BIN

Combine newspaper with mixed paper and cardboard into the Mixed Paper Bin – **no more Newspaper Bins!**

2 GLASS BIN

Separate glass bottles and jars into the Glass Bin – **glass is no longer accepted in the Containers Bin.**

3 CONTAINERS BIN

Include only plastic, metal, and other containers such as cartons and paper cups!

- Glass is no longer accepted – **use new Glass Bin.**
- Plastic bags and foam containers are no longer accepted – **take them back to local depots for recycling!**
